

CUMRU TOWNSHIP SEWAGE MANAGEMENT PROGRAM

Township Fees

The Township of Cumru has instituted an On-Lot Sewage Disposal Maintenance Fee to support the Sewage Management Program. This fee is necessary to cover the costs of maintaining the program, including the costs of the On-Lot inspections property owners are required to schedule with the Township SEO, administration of the SMP and enforcement. The fee is intended to make the program self-supporting, similar to the fee for the refuse/recycling program.

The fee for the first 3-year cycle has been established at \$225.00, but is being spread out over 3 years for an annual amount of \$75.00. To minimize administrative costs, this \$75.00 annual fee is being handled in the same manner as the refuse/recycling fee: it will appear on the County/Township bill issued in March.

The Township of Cumru will evaluate the fee on an annual basis.
